

E&W Trading Group – Alkyd Resin Offering

1. Who We Are

- **Exclusive distributor of PACHIN Egypt alkyd resins** across Africa.
- Over **30 years** in coatings & raw material trade.
- **Africa-focused logistics** – FOB, CFR, CIF to West, East & Southern Africa.
- Full documentation: **TDS, COA, SDS, batch traceability**.

2. Alkyd Resin Families (Quick Overview)

Family	Key Features	Typical Uses	Highlights
Long Oil Alkyds	High oil (56–70%). Flexible films, excellent gloss, exterior durability.	Enamels, wood varnishes, marine finishes.	Superior weather resistance & gloss retention.
Medium Oil Alkyds	Balanced drying, hardness & flexibility.	Architectural enamels, general-purpose varnishes.	Good balance of durability & cost.
Short Oil Alkyds	Low oil (<46%). Fast-drying, hard films.	Industrial enamels, primers, corrosion-resistant systems.	Suited for high-productivity lines.
Urethane-Modified Alkyds	Enhanced hardness, chemical resistance, durability.	Floors, parquet varnishes, automotive coatings.	High performance for heavy-duty applications.

3. Selected Export Grades (Representative)

Long Oil

- 10927 / 10925/2 → High-build interior/exterior enamels.
- 20526 → Flexible, exterior durability.
- 20715/1 → Architectural enamels (sunflower FA).

Medium Oil

- 20563 → Exterior household; gloss retention.
- 20586 → Fast air-dry, good exterior durability.

Short Oil

- 20386 → Rapid air-dry industrial enamels.
- 20957 → Primers, industrial enamels, 2K PU wood.

Urethane-Modified

- 20621/2 → Fast air-dry, parquet & high-hardness films.

4. Value for Different Segments

Decorative & Enamel Producers

- Reliable supply of **long/medium oils** for architectural enamels.
- Balanced performance (dry time, gloss, durability).
- Cost-effective bulk options.

Marine & Industrial Coatings

- **Short oils** for fast-dry industrial enamels & corrosion-resistant primers.
 - **Urethane-modified alkyds** for marine & floor coatings with high chemical resistance.
 - Support on resin selection for harsh environments.
-

5. Why Partner with E&W

- **Exclusive PACHIN access:** trusted Egyptian manufacturer, ISO-certified (9001, 14001, 45001).
 - **Africa logistics expertise:** bulk shipments via multiple ports.
 - **Technical guidance:** resin selection tailored to your formulation.
 - **Competitive pricing** with full compliance documentation.
-

6. Next Steps

- Share your **RFQ**: required specs, grades, volumes, port, and Incoterms.
- We provide **proposal**: pricing, lead time, compliance pack.
- **Execution**: shipment, updates, delivery assurance.
